

ABN AMRO starts EUR 250 million share buyback programme

27 March 2026

ABN AMRO today started the share buyback programme announced on 11 February 2026 under which it plans to repurchase depositary receipts and ordinary shares of ABN AMRO Bank N.V. for a maximum total value of EUR 250 million.

The share buyback programme will commence today, 27 March 2026, and is expected to end no later than October 2026. The purpose of the programme is to reduce ABN AMRO's share capital. ABN AMRO's CET1 ratio at the end of 2025 was 15.4%. The capital required for the announced share buyback programme has been reserved and was already excluded from the 2025 Q4 capital ratios. The repurchased shares will be cancelled in due course.

The ECB has approved the share buyback programme, which will be executed within the limitations of the authority granted by the general meeting of shareholders on 23 April 2025 (maximum of 10% of issued shares) and in compliance with the Market Abuse Regulation.

NLFI will participate in the buyback for such number of shares as corresponds with 20% of the total value of the share buyback programme via off-market transactions, thereby maintaining its relative stake in the company.

ABN AMRO has entered into a non-discretionary arrangement with a financial intermediary to conduct the open market buyback. ABN AMRO will provide weekly updates on the progress of the programme via a press release and on the Investor Relations section of its website:
